

REMARKS

The present application has been allowed. However, the Specification was objected to for formal matters, e.g., a Brief Description of the Drawings section.

Thus, in accordance with 37 C.F.R. § 1.121(b)(3), a Substitute Specification (including the Abstract, but without the claims) is provided and contains no new matter. The amendments reflected in the Substitute Specification (including Abstract) are to conform the Specification and Abstract to U.S. Patent and Trademark Office rules or to correct informalities. As required by 37 C.F.R. § 1.121(b)(3)(iii) and § 1.125(b)(2), a Marked Up Version Of The Substitute Specification comparing the Specification of record and the Substitute Specification also accompanies this Preliminary Amendment. In the Marked Up Version, double-underlining indicates added text and strikeouts indicate deleted text. Approval and entry of the Substitute Specification (including Abstract) is respectfully requested.

CONCLUSION

In view of the foregoing, it is believed that the formal matters have been corrected in the Specification; and the present application is ready for issuance.

Respectfully submitted,
